

Grand Masters Ontario Provincial Curling Championship

This is a photo of Art Lobel receiving the president's position from event founder Austin Palmer at the Diversicare Grand Masters provincial championship in March. As you know I have participated in several provincials but I find this one very special because it is so well suited to the participants. We are all over 70 in age and looking for exercise and camaraderie during our long cold winter months. A number of the participants played in their first provincial curling championship at 70+ years of age. Our event is now on the OCA calendar of events and includes women entries either as complete teams or combined with male players on the same team.
